## **The impact on production related to the new coronavirus (COVID-19) infection(2)**

Since March 17, 2020, NiCeRa has temporarily suspended production activities at the subsidiary, NiCeRa Philippines Inc.(NPI), due to the quarantine regulations for COVID-19 announced by the Philippine government.

Since May 16, 2020, NPI has been preparing for the resumption, following the relaxation of restrictions by the Philippine government.

We would like to announce that NPI has returned to the production capacity before the production activity was stopped and the number of personnel has been secured, so we have resumed the production activity.

In accordance with the instructions of the government, NiCeRa and NPI will continue to give top priority to the health of our customers, local residents and employees, endeavor to prevent infections and reduce the risk of our business activities.

Thank you very much for your continued support.
