**(Progress of Disclosure Matter) Notice Regarding Unauthorized Access to Data Server**

We previously announced in the “Notice Regarding Unauthorized Access to Data Server” that our data server had been illegally accessed by a third party (the “Attacker”) on April 8, 2025 (the “Unauthorized Access”). We have received the results of an investigation conducted by external professionals into the cause and means of intrusion, and it has been confirmed that there was leakage of some information related to our business partners and other relevant parties. We hereby announce the facts as of now and our next steps. Please note that the information contained herein is subject to change if new facts or changes in the facts are confirmed as a result of further investigation.

We deeply apologize for any inconvenience and concern this may cause to our business partners and other relevant parties.

**1. Background and status of the Unauthorized Access**

On April 7, 2025, at around 8:00 a.m., a failure in our data server was detected, and upon investigation, it was confirmed that the data server had been subject to the Unauthorized Access by the Attacker on April 5, 2025. Upon confirming this data breach, we immediately prevented access to all information equipment, including the affected data server, from both the Internet and our internal networks, in order to prevent further damage. Additionally, we promptly implemented security measures by, among other things, reporting the Unauthorized Access to external professionals, including a cybersecurity service provider. Although there was temporary disruption to operations due to the above measures, there was no effect on our business such as production and shipments, owing to the measures taken by us such as restoring terminal PCs the security of which we have confirmed sequentially since April 8, 2025.

In the course of the investigation conducted by external professionals to date, it has been confirmed that the information in the table below has been leaked to external parties.

Information confirmed to have been leaked

Personal information (Approximately 900 people)	<ul style="list-style-type: none"><li>• Information on our business partners Name, company name, department, title, business telephone number, business e-mail address, etc.</li><li>• Information on our employees (including former employees) Name, department, title, etc.</li></ul>
Information about our business partners (Approximately 350 companies)	<ul style="list-style-type: none"><li>• Information on our business partners Company name, product information, transaction volume, etc.</li></ul>

In the course of the investigation to date, it has been confirmed that the information in the table below may have been leaked to external parties.

Information which may have been leaked

Personal information (Approximately 37,600 people)	<ul style="list-style-type: none"><li>• Information on our business partners Name, company name, department, title, business e-mail address, etc.</li><li>• Information on our shareholders (including our former shareholders) Name, address, shareholder number, telephone number, number of shares held (as of the end of June and December respectively, from 2015 to 2024), etc.</li><li>• Information on our employees (including former employees) Name, date of birth, age, address, telephone number, e-mail address, basic-pension number, insurer number, passport number, driver's license number, individual</li></ul>
---	---

	number, department name, title, etc.  • Information on applicants for employment with us Name, date of birth, age, address, telephone number, e-mail address, etc.
Information about our business partners (Approximately 1,500 companies)	• Information on our business partners Company name, product information, transaction volume, etc.

We have reported the Unauthorized Access to the Personal Information Protection Commission, and we are continuing to investigate this case — including as to whether further information has been leaked — in cooperation with the police, external professionals, and an outside professional investigation company. At present, no secondary harm has been confirmed, such as misuse of the leaked information, but we will continue our efforts to ascertain and monitor the situation.

Inquiries regarding the Unauthorized Access should be directed to the points of contact listed at the end of this notice under “For inquiries regarding the Unauthorized Access”. If you receive any contact that you do not recognize, or if you suspect any secondary harm, such as misuse of leaked information, please inform us.

## 2. Our next steps

We will give top priority to the prevention of secondary harm, and in due course we will notify individually those whose information has been confirmed to have been leaked as well as those whose information is suspected to have been leaked. Please note that we will not be able to notify individual business partners and other relevant parties whom we are unable to contact for reasons such as inability to confirm contact information, and instead this notice serves as notification. We will continue our investigation with the assistance of external professionals, and if and when we discover new information that has been confirmed to have been leaked or is suspected to have been leaked, we will offer our apologies and explanations to those affected.

In addition, we have suspended the usage of the affected data server and system, and we are making significant efforts to ensure that there will be no disruption to production and delivery of our products, by using networks which are completely isolated and terminals that have been confirmed to be safe. We have been taking measures for information security to date, and we take this situation very seriously and will take further measures to strengthen our security and monitoring systems, while receiving advice and undergoing checks from external professionals.

The impact of the Unauthorized Access on our earnings forecast is currently under scrutiny, and we will promptly announce publicly any matters that need to be disclosed.

If you have any questions regarding the above, please contact us at the points of contact listed under “For inquiries regarding the Unauthorized Access”.

We deeply apologize once again for any inconvenience and concern this may cause to our business partners and other relevant parties.

**For inquiries regarding the Unauthorized Access**

Reception hours: 10:00-17:00 (except Saturdays, Sundays and national holidays)

• For inquiries regarding information about our business partners and personal information on our business partners
